LAUNDRY BAGS

POLYTHENE LAUNDRY BAGS

Polythene plastic laundry bags are used in most NHS hospitals, as well as in care homes, salons and clinics.

Whenever there is a need to transport fouled or infected linen to the laundry then these plastic laundry bags are more hygienic and safe than using fabric equivalents.

Colour coded for easy identification. Available in red to signify fouled, infected or biohazardous linen, also available in green and white.

- Boxes of 500 bags
- Size: 72cm x 100cm
- Available in red, green or white

Product name	Sizes	Product code
Polythene laundry bags (boxes of 500 bags)	72cm x 100cm	LB500

FULLY SOLUBLE POLYTHENE LAUNDRY BAGS

Designed to minimise contact with contaminated linen, these fully soluble red polythene laundry bags are ideal for simplifying the process of doing laundry.

To use, simply place laundry into the bag, insert into the washing machine and by the end of the wash the whole bag will fully dissolve, leaving freshly washed laundry.

A simple, yet hygienic solution to dealing with soiled or contaminated linen, ideal for use in care homes, hospitals, hotels and more. The soluble bag dissolves in wash temperatures of approx. 60 degrees celsius.

Product name	Sizes	Product code
Fully soluble red laundry bags (box of 100 bags)	77cm x 99cm	LB502

LAUNDRY BAGS

LAUNDRY BAG WITH WEBBING LOOP

Hospital laundry bags are used by hospitals and clinics to transport soiled linen hygienically and effectively to the laundry. For this reason, the elasticated opening at the top is designed to be wide enough to fit most laundry collection trolleys.

- Available in red, white, blue and grey
- 100% polyester
- Durable
- Carry heavy loads of soiled linen

Product name	Sizes	Product code	Available on NHS Supply Chain
Laundry bag with webbing loop	83cm x 147cm	LB002	N/A
